

CAiSE '17

29th International Conference on Advanced Information Systems Engineering
12-16 June 2017, Essen, Germany

CAiSE '17 Doctoral Consortium CALL FOR PAPERS

The CAiSE'17 Doctoral Consortium will be the 24th Doctoral Consortium of a series held in conjunction with the CAiSE conference series. It is intended to bring together PhD students working on foundations, techniques, tools and applications of Information Systems Engineering and provide them with an opportunity to present and discuss their research to an audience of peers and senior faculty in a supportive environment, as well as to participate in a number of plenary sessions with Information Systems academics.

Goals

- To provide fruitful feedback and advice to the selected PhD students on their research project
- To provide the opportunity to meet experts from different backgrounds working on topics related to the Information Systems Engineering
- To interact with other PhD students and stimulate an exchange of ideas and suggestions among participants
- To provide the opportunity to discuss concerns about research, supervision, the job market, and other career-related issues

To be eligible for the Doctoral Consortium, the candidate must be a current doctoral student within a recognized university. Ideally, the candidate should have at least 6-12 months work remaining before expected completion (and at least 12 month of work already performed).

Why to submit to the CAiSE'17 Doctoral Consortium?

- The CAiSE '17 Doctoral Consortium will be attended by prominent professors in the field of Information Systems Engineering who will actively participate as mentors to each doctoral student presenting a paper in the Doctoral Consortium.
- Accepted papers will be published in the **CEUR proceedings** (<http://ceur-ws.org/>).
- Roel Wieringa will provide an introduction to design science methodology, for all PhD students participating to the Doctoral Consortium.
- Authors of accepted Doctoral Consortium papers will benefit from a reduced registration fee, which will enable them also to attend the main CAiSE conference, and all associated social events.

Also, this submission might allow you (in case of acceptance) to candidate for a future CAiSE PhD Award after your viva.

Submission Guidelines

Submissions must be single-author, but the name of the supervisor should be mentioned within the paper. The language of the consortium is English; attendees must have sufficient proficiency in English to allow them to participate in the academic discussions of the Consortium. Submissions must be made electronically in PDF format via the EasyChair conference system

<https://easychair.org/conferences/?conf=caise2017dc>

The paper must:

- clearly formulate the research question,
- identify a significant problem in the field of research,
- outline the current status of the problem domain and related solutions
- present clearly any preliminary ideas, the proposed approach and the results achieved so far,
- describe the research methodology that is applied or planned,
- outline the contributions of the applicant's work to the problem domain and
- highlight their uniqueness
- conform to the Springer LNCS format (<http://www.springer.de/comp/lncs/authors.html>)
- contain less than 4000 words (approx. 8 pages in LNCS style)

Important Dates

Paper submission deadline:	20 March 2017
Notification of acceptance:	17 April 2017
Camera-ready copy:	01 May 2017
CAiSE Doctoral Consortium:	14-16 June 2017

Mentors

- **Marite Kirikova**, Riga Technical University, Latvia
- **Selmin Nurcan**, University Paris 1 Panthéon Sorbonne, France
- **Oscar Pastor**, Universitat Politècnica de Valencia, Spain
- **Barbara Pernici**, Politecnico di Milano, Italy
- **Hans Weigand**, Tilburg University, The Netherlands
- **Jelena Zdravkovic**, Stockholm University, Sweden

Chairs

- **Raimundas Matulevičius**, University of Tartu, Estonia
- **Roel Wieringa**, University of Twente, Netherlands
- **Camille Salinesi**, University Paris 1 Panthéon Sorbonne, France
